MARNUS DE BEER

BSc Information Technology Student — North-West University

063 744 5056 | marnus.debeer0512@gmail.com | Krugersdorp, South Africa

LinkedIn | GitHub | Portfolio / Virtual CV

OBJECTIVE

A motivated and dedicated final-year student pursuing a Bachelor of Science in Information Technology. Eager to apply my strong academic foundation and practical programming skills in a role. I am a quick learner, reliable, and ready to contribute to a dynamic team.

EDUCATION

Hoërskool Noordheuwel
High School | 2018 – 2022

Bachelor of Science in Information Technology
North-West University | Expected Graduation: 2026

- Current Credits: 344 out of 392 credits completed
- Current GPA: 61.25% See Academic Record
- **Relevant Coursework:** Object-Oriented Programming, Structured Programming, User Interface Programming, Data Structures and Algorithms, Advanced Databases, System Analysis and Design, Computer Networks, Artificial Intelligence, Information Security, IT Developments and Operating Systems.

SKILLS

- **Programming Languages:** Proficient in Java (Object-Oriented Programming); working knowledge of Python; basic understanding of C++ and C# from structured programming coursework
- **Web/UI Development:** HTML, CSS, and JavaScript; experience from User Interface Programming (CMPG122) and building a responsive personal portfolio site
- **Database:** Knowledge of Databases (CMPG311) and Advanced Databases (CMPG321)
- **Data Analysis:** Familiar with Data Analytics (CMPG222) and Descriptive Statistics (STTN111); currently building Power BI skills
- **Systems & Analysis:** Understanding of System Analysis and Design, Decision Support Systems, and IT Developments
- **Software:** Proficient in Microsoft Office Suite (Word, Excel, PowerPoint)
- **Soft Skills:** Problem-solving, strong work ethic, punctual, team player, fast learner, good communication skills (CMPG214)

PROJECTS

KDB Interiors Website GitHub | Live site
Designed, built, and deployed a website for a client, KDB Interiors, now live online at kdb-interiors.co.za.

Gym Tracker See here
Built and deployed a web app for logging and tracking gym workouts, hosted on Vercel.

Virtual CV & Portfolio Website See here
Designed and built a responsive personal portfolio/CV site to present my education, skills, and projects to employers.

Turtle Racer (Python) See here
A small game built with Python's turtle module: the player picks a colour before the race begins, and the turtles race across the screen to see which colour wins.

US States Game (Python) See here
A geography quiz game: when the player types a US state's name correctly, it appears labelled in its correct position on a map of the United States.

Academic Coursework Projects
Assignments and practicals completed across Object-Oriented Programming, Databases, User Interface Programming, and System Analysis and Design modules, covering software design, database implementation, and interface development.

CERTIFICATIONS & WORKSHOPS

- **Udemy — 100 Days of Code: The Complete Python Pro Bootcamp** *(Dr. Angela Yu) — in progress*
- **Udemy — Microsoft Power BI Desktop for Business Intelligence** *(Maven Analytics) — in progress*
